**MULTITECH PRO SERVICES**

Your versatile partner for superior industrial and commercial performance!

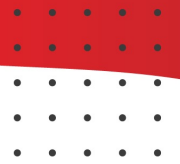

# WHO ARE WE?

MULTITECH PRO SERVICES is a versatile company operating in many industrial and commercial sectors. Together with our partners, we are proud of our expertise and experience in the fields of oil, oil and gas, construction, water production and distribution, energy production, distribution and transmission, health, security, port and airport equipment, telecommunications, electronics, logistics, multimodal transport and related services. We also offer human resources services for all our sectors of activity.

Our talented and experienced team and partners are ready to take on any challenge to offer innovative solutions to our customers. We are committed to the highest standards of safety, quality and sustainability in all our projects. Through our technical expertise, experienced partners and commitment to excellence, we strive to create a positive impact on the communities and industries we serve.

# OUR SERVICES

## PETROLEUM AND OIL-RELATED SECTOR

In the oil and gas sector, we offer, with our partners, a full range of services from exploration and production to refining and distribution. We work closely with our clients to optimize their operations, improve energy efficiency and ensure responsible management of natural resources.

## HEALTH AND SAFETY

Health and safety are essential aspects of all our operations. We and our partners set high standards to ensure a safe and healthy working environment for our employees and collaborators. We also invest in community health initiatives, supporting the well-being of the local population.

## WATER AND ENERGY

The production, distribution and transport of water and energy are also at the heart of our activity. We work with key partners, local authorities and businesses to ensure a reliable supply of clean drinking water, as well as sustainable and efficient energy solutions, contributing to the sustainable development of the communities we serve.

## CONSTRUCTION

When it comes to construction, we and our partners are renowned for our expertise in delivering complex infrastructure projects, such as port, airport and energy facilities. Our teams of experienced professionals oversee every step of the process, from initial design to final delivery, ensuring that each project is completed on time and on budget.

# OUR SERVICES (CONTINUED)

## TELECOMMUNICATIONS AND ELECTRONICS

In telecommunications and electronics, we and our partners offer innovative solutions to meet growing connectivity needs. From providing high-speed communication services to building advanced network infrastructures, we help our customers stay competitive in an increasingly digital world.

## LOGISTICS AND TRANSPORT

Logistics, multimodal transport and related services are an integral part of our service offering. Together with our partners, we ensure the smooth movement of goods and equipment, using the most suitable modes of transport, while ensuring efficient supply chain management.
